***Allowable Subject Matter***

2. Claims 7-8 and 11-15 are allowed.

The following is a statement of reasons for the indication of allowable subject matter: The allowability of the claims resides, at least in part, that the closest prior art of

record **Karin et al. (US 2003/0090772 A1)** does not disclose or suggest, alone or in combination, the step of:

Regarding independent claim 7, **moving the substrate relative to the head at a third speed in a first direction and moving the head relative to the substrate at a fourth speed in the first direction while scanning the first portion of the substrate, wherein the first speed equals the sum of the third and fourth speeds; and moving the head relative to the substrate at a fifth speed in a second direction opposite to the first direction while scanning the second portion of the substrate, wherein the second speed equals the difference of the third and fifth speed, in combination with the other elements and features of the claimed invention.**

As for independent claim 11, **the substrate constantly moves at a third speed in the first direction during exposing, and the third speed is greater than the second speed, in combination with the other elements and features of the claimed invention.**

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
